1. The following is an examiner's statement of reasons for allowance: Prior art of record does not teach or suggest "each of said complex images having corresponding alphanumeric identification code" and "transmitting the alphanumeric identification code of said selected complex image from client to said remote server", which reduce bandwidth by removing the need to transmit the complex image from client each time the server requires verification of the user's identity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
